Important Points to Note

- Always ask your supplier important questions
- Also don't chat and demand for their price list if you are not yet ready to make an order, so that they don't see you as not being serious....

Step By Step Process on How To Order From Suppliers

this is the process to follow

1) Check through the contacts list

2) Message a supplier of your choice

3) #Note :- The message should go like this, lets use human hair as example -- Hi friend, I run a hair business and will want to buy from your factory for reselling. Can I see pictures/videos of available hairs? Can I see your wholesale price list please?

4) Next, go through the price list ask, professional questions about the price list from them and collate your order

5) Collate your order stating the quantity, color and specifications of the products you need.

6) Advisably, it's always good to buy few pieces for a start. But factories always have Minimum order quantity (MOQ), so to be able to still buy few pieces you have to talk to them professionally.

For example, I will really love to be doing business with you dear but will love to buy sample pieces first to check out your product quality

That way you have convinced them you are ready to do business with them but you need to see their product before you buy in large bulk orders

7) Immediately you are granted the opportunity to buy few pieces, pay to them with domiciliary account if using dollars or if it's a Chinese supplier tell them you have an agent in China and will love to pay them in yuan so they should give you the yuan estimate. Also tell them you have a shipper in China

8) Message the yuan funder to help you pay or use your Alipay account if fully setup

9) Message the shipper, get their address and forward the address to the supplier

10) The supplier will send your goods to the shipping company who will ship it to your country

11) When the goods arrive your country, you will be contacted. If you are not located in the capital of your country, they will help you waybill it to your location

LET'S BEGIN

Most of them don't stock up actually, they act as drop shipping agents for the stores. Hence they post what's available from the stores and add a certain percentage on it to drop ship.

DUBAI

There are basically two methods of importing from Dubai

* The first is to visit Dubai and shop your goods. Most people chose this actually because travelling to Dubai isn't really expensive.

* The second is to buy goods from Dubai via procurement agents just like we do for other countries.

What can you import from Dubai?*

Quality Abayas

Designers bags and wallets (Susen etc)

Gold

Zirconian jewelries

Veils

Textiles

Women Clothings

Perfumes and perfume oils

Leather (Dubai has very nice leathers car seats)

Islamic Clothings

Dubai is actually the best place to get real Gold ,Jalamia ,,perfume and others

Dubai is a city in the UAE known especially for luxury shopping.*

It is actually the largest and the most populous and a home for designer products.

Perfume Oil Importation

Perfume oil are concentrated perfumes in oil form. They last longer than perfumes.

Perfume oils are mostly sourced from Dubai. They have undiluted and quality oils.

Dubai personal shoppers would help you buy directly from suppliers, they will give you the supplier's price and add their own percentage

Perfume oil comes in big cylinder conditions with moq of 15ml of 12 dozen

There are a lot of fragrances as well.

After buying you'll then repackage for reselling. Bottles can be bought from 1688 or bought from Dubai alongside the perfumes.

This is how the price list looks like...

50 ml #3000

100 ml #4500

250 ml #7500

500 ml #14,000

1000 ml #26,000

Some agents charge between 10% - 15% of the price as commission.

You now have to get a minimum of 12 PCs for 50ml.
